g) Event Description: Hospitals complement and amplify the effectiveness of many other parts of the health system, providing continuous availability of services for acute and complex conditions. They concentrate scarce resources within well-planned referral networks to respond efficiently to population health needs. In an effort to provide a world-class healthcare facility to the residents of Dhanbad, Infrastructure must integrate the hospital, as the centre for acute and inpatient care, into the broader health care system,¹ and should facilitate the seven domains of quality² – patient experience, effectiveness, efficiency, timeliness, safety, equity and sustainability. Infrastructure includes the built environment and supporting elements: equipment, access, information technology (IT), systems and processes, sustainability initiatives and staff. Overall these interwoven facets should enable patients to move seamlessly, with their privacy and dignity maintained at all times,³ from initial referral through local hospitals to specialist tertiary centres

and discharge to appropriate care (home, care home, or community hospital with intermediate care), whatever the age, disorder or social circumstances of the patient. BCCL has initiated the work of renovation of Central Hospital, Dhanbad (CHD). On 15.07.2022, the foundation stone was laid by Shri Pashupati Nath Singh, Hon'ble MP, Lok Sabha (Dhanbad) and Shri Raj Sinha, Hon'ble MLA, Dhanbad in the presence of Shri Samiran Dutta, CMD, Shri PVKRM Rao, D (P) and Shri Sanjay Kumar, D (T), amongst others.

g) Brief Description of the Event: Bank erosion caused by the river Brahmaputra is one of the major reasons why Assam gets flooded every year. It means the removal of soil, sediment, or rock fragments along the banks, which results from high water flow. Due to erosion, the width of the river increases and it changes its course. Immediate impacts of flooding can include loss of human life, damage to property and infrastructure, and destruction of crops and livestock. Examples of long-term impacts include the interruption to communication networks and critical infrastructure (such as power plants, roads, hospitals, etc.). NEC provided flood relief measures like distribution of food, necessary items regularly every day for one week to the flood hit areas of Assam through ISKCON funded by CIL.
