g) **Event Description:** On eve of Vigilance Awareness Week a debate competition was held on 5.11.2022 at Conference Hall amongst staff of Block 2 area. The topic was Impact of Social media on Society. 30 participants participated in the events. They gave their views on what factors have caused social networks to evolve from being a handy means for keeping in touch with friends and family to being used in ways that have a real impact on society. The Influence of Social media is being used in ways that shape politics, business, world culture, education, careers, innovation, and more. The negative effects of mass media on society can lead people towards poverty, crime, nudity, violence, bad mental and physical health disorders and others as such severe outcomes and how we can tackle it. Using debates in the classroom provides students the opportunity to explore real-world topics and issues. Debates also engage people through self-reflection and encourage them to learn from their peers.
