

Coal India Limited

Brief of AKAM Activities being carried out in CIL and Subsidiaries
Week 101th (06.02.2023-12.02.2023).

Activity 101.1

- a) **Name of the Event:** Distribution of nutritional Food Basket@BCCL
- b) **Event Type:** External
- c) **Event Mode:** Offline
- d) **Theme:** Resolve@75
- e) **Event Photographs:**

f) Event Date: 07.02.2023

g) Event Description: The association between TB and malnutrition is bi-directional, TB leads the patient to malnutrition, and malnutrition increases the risk of developing active TB by 6 to 10 times. Malnutrition can lead to secondary immunodeficiency that increases the host's susceptibility to infection. In patients with tuberculosis, it leads to reduction in appetite, nutrient malabsorption, micronutrient malabsorption, and altered metabolism leading to wasting. Both, protein-energy malnutrition and micronutrients deficiencies increase the risk of tuberculosis. It has been found that malnourished tuberculosis patients have delayed recovery and higher mortality rates than well-nourished patients. Nutritional status of patients improves during tuberculosis chemotherapy. As per the request of D.C., Dhanbad to adopt TB patients from Dhanbad district for providing nutritional food basket, BCCL had a meeting with the officials from District TB Officer, Dhanbad and other Dhanbad District Administration officials. At the meeting, BCCL took the TB Pledge to undertake sincere efforts to provide leadership in the fight against TB. BCCL will start this noble cause by providing the nutritional basket to TB patients of Dhanbad district for an initial period of 06 months.

Activity 101.2

- a) **Name of the Event:** Installation of 100 nos. of Solar Powered street Light@CMPDIL
- b) **Event Type:** External
- c) **Event Mode:** Offline
- d) **Theme:** Resolve@75
- e) **Event Photographs:**

f) Event Date: 06.02.2023

g) Event Description:

CMPDI installed 100 nos. of Solar Powered Street Lights.

CMPDI's, Regional Institute -I, Asansol under CSR Installed 100 nos. of Solar Powered Street Lights in Jamgora Village, (Dist) Paschim Bardhaman, West Bengal at a cost of 15.10 lakhs.

These Solar Street lights impact the life of people in a positive way in accessing the roads, markets during night time apart from being Economical and environmental friendly. Solar street lights are water-resistance and weatherproof and have a low glare and low insect attrition rate. The solar panels in these lights convert solar energy into electrical energy that gets stored in the inbuilt battery and is utilized for dusk-to-dawn lighting operations.

The CSR Committee along with OIC Mollarpur Sub-Camp visited the Jamgora village and interacted with the people of the village to get the feedback. People expressed their happiness towards this CSR initiative of CMPDI.

Activity 101.3

- a) **Name of the Event:** Distribution of 500 jute Bags and cleaning of MCL Colonies and Dispensaries @MCL
- b) **Event Type:** External
- c) **Event Mode:** Offline
- d) **Theme:** Resolve@75
- e) **Event Photographs:**

f) **Event Date:** 08.02.2023

g) **Event Description:** Jute is 100% biodegradable, low-energy recyclable, and can even be used as compost for the garden. Paper, on the other hand, takes longer to biodegrade if it is untreated, uses more energy in its recycling process, and for most kinds of paper does not compost well at all.

As per the directions for the implementation of Second Year of Azadi Ka Amrut Mahotsav Celebrations at Jagannath Area. Activities were carried out for Theme A: Swachhata more than 500 Jute Bags were distributed in a

phased manner on different days and cleaning of MCL Colonies and Dispensaries was also done simultaneously during the same period of time. Photos for the same have been attached below. A clean colony not only improves not only our physical health but also mental health and makes you far more productive. Cleanliness is the most important habit one can possess, as cleanliness and health are interrelated. If one is clean, he/she can fight off and prevent many diseases, especially communicable diseases.

Activity 101.4

- a) Name of the Event:** 15 Days Sports Camp@NCL
- b) Event Type:** External
- c) Event Mode:** Offline
- d) Theme:** Resolve@75
- e) Event Photographs:**

f) Event Date: 11.02.2023

g) Event Description: Sports are very essential for every human life which keeps them fit and fine and physical strength. It has great importance in each stage of life. It also improves the personality of people. Sports keep our all organs alert and our hearts become stronger by regularly playing some kind of sports. Sports camps inculcate the importance of physical activity early-on. Youngsters are encouraged to take up one or more sporting activity they enjoy as a hobby, and for fun. This makes them more active helping with blood circulation, healthier bones and bodies, better heart and lung fitness and overall growth. NCL Jhingurda under CSR is organizing a Sports Camp as a platform to harness the hidden talent of unprivileged Children. Sports Training is being provided freely to children who dares to dream big and wants to be an athlete.

Activity 101.5

a) Name of the Event: Brain-storming session (Kaizen) on scope of improvement/ achievements in respect of Mines/ Workshops/ Departments/ Establishment@SECL

b) Event Type: Internal

c) Event Mode: Offline

d) Theme: Ideas@75

e) Event Photographs:

f) **Event Date:** 10.02.2023

g) **Event Description:** Under the AKAM Program a brainstorming session was organized at the AHQ CHIRIMIRI in the presence of All HOD, staff officers, SAMs, Colliery Managers and Executives of different department on above topic discussed on possibilities on scope of improvement on achievement of Mine/Workshop /Department /Establishment.

In the session it was discussed that Productivity and efficiency are often paired together but in contexts that typically tackle only one of them. **Productivity** is about production levels over a defined period of time (eg tonnes of coal per annum) and may consider factors such as the quality of material produced. A plan to improve productivity might look at a pit's design or a mining method. **Efficiency** looks at the resources required to achieve that level of production (eg labor and equipment) and whether there's any waste in the process. A plan to improve efficiency might look at a haul road's design or team workflows. If Company A produced 1Mt of coal with 50 personnel, they would be more efficient than Company B also producing 1Mt of coal with 100 personnel over the same timeframe.

Leaders and teams can become disillusioned with standardizing the improvement process because it often results in uninspiring results and, at times, negative performance short term. Communication with leaders and workgroups is critical so they understand the value in getting the process right – and are prepared for initial setbacks. Standardizing means:

1. Defining the best way to perform the current process.
2. Ensuring those steps are consistently followed by everyone.
3. Putting measures in place to monitor variance of key inputs and outputs.
4. Having a trigger point and response plan to manage variances if they are identified.

Standardizing improvement will provide a strong foundation for long-term gain because everyone will be moving from the same starting position.

Activity 101.6

- a) **Name of the Event:** Women Empowerment Campaign to be organized for employees/community in nearby villages by Ballarpur Area@WCL
- b) **Event Type:** Internal
- c) **Event Mode:** Offline
- d) **Theme:** Resolve@75

e) Event Photographs:

f) Event Date: 10.02.2023

g) Event Description:

In connection with Azadi ka amrut mahotsav activity at Ballarpur Area, a brainstorming session was organized on women empowerment.

Factors that played a crucial role in being empowered in the workplace have been brainstormed and women employees share their experience in situations where they felt being empowered. In this connection, factors put forth by the employees are importance of education, skill upgradation, being confident, assertive working culture, technical expertise, recognition/support, mental health, equal opportunities, access to infrastructure.

Discussions happened on how these factors make a woman more empowered at the place.

Discussions also happened on the way to bring empowerment to women who are homemakers through imparting education and being financially independent.

Activity 101.7

- a) **Name of the Event:** Environment Awareness Campaign@ECL
- b) **Event Type:** External
- c) **Event Mode:** Offline
- d) **Theme:** Resolve@75
- e) **Event Photographs:**

f) Event Date: 12.02.2023

g) Event Description: Environmental resources combine what is naturally found in the world and human ingenuity. Natural resources are not made or caused by humankind, but environmental resources can be caused by humankind (e.g., transportation and recreation, a beautiful landscape, discovery of a new species). Salanpur area of ECL has organized an essay and quiz competition on 21st Feb, 2023 at Panchgachiya Vivekananda High School under Natural and Community Resource Augmentation Plan(NCRAP).Essay writing is an important part of studying. It increases understanding and helps the process of learning because it pushes you, amongst other things, to clarify and sort out ideas and information, to analyse source material and to exercise critical judgement.Essay writing helps in developing critical thinking skills, language skills, and analytical skills. It helps in understanding the meaning of words and sentences. It helps in enhancing communication and Comprehension skills. It helps in building confidence for public speaking and delivering speeches.

- f) **Event Date:** 10.02.2023

- g) **Event Description:** Greater investments in family planning can thus help mitigate the impact of high population growth by helping women achieve the desired family size and avoid unintended and mistimed pregnancies. Further, contraceptive use can prevent recourse to induced abortion and eliminate most of these deaths. Pamphlet distribution regarding CSR Family planning Camp at B&K Area, CCL. Family planning and, more specifically, contraception, can protect teenagers from the physical, emotional and financial burden of unplanned pregnancy. When a pregnancy is unplanned, ill-timed, or too closely spaced, it affects the mother's health which, in turn, affects the health and safety of her unborn child. The programme has undergone a massive transformation from its early days when the focus was in terms of a clinical approach to today when the focus is on reproductive health, and in the reduction of maternal and infant mortality rates, child mortality and morbidity.

Activity 101.9

- a) **Name of the Event :** Distribution of disengaged computers to needy educational institutions for gainful utilisation
- b) **Event Mode :** Offline

f) Event Date :10.02.2023

g) Event Description :

CIL distributes serviceable computers to the underprivileged

In an attempt to promote digital literacy and put e-waste to sustainable use, Coal India has donated serviceable computers to educational and charitable institutions across West Bengal, Odisha and Jharkhand as a part of Special Campaign 2.0 initiated by Government of India. During

this initiative CIL has donated 250 desktops in phase 1 and efforts are on to donate 100 more in phase 2. The campaign is a part of AKAM and Special Campaign 2.0. The computers are being gainfully utilized in educational institutions where they could not afford a single computers now many of them are able to learn from these computers. This is a long term campaign where a total of 300 plus computers will be distributed during the second year of AKAM celebration.

SCCL

Awareness Program on Plastic waste Management

* * *

The 101th Week program of Azadi ka Amrut Mahotsav is scheduled as Awareness Program on Plastic waste Management. The program was organized in all areas of SCCL.

The employees have participated in the program and it was arranged in the General Manager office of Yellandu Area, under the banner “Azadi Ka Amrut Mahotsav”.

The participants of this program are explained the dangers due to use of plastic and suggested alternatives like jute bags and clothe bags to protect the environment.

During the inauguration program Sri P Shalem Raju, GM Yellandu Area and staff of GM Office have attended the Program along with union representatives of Recognised Union, Representative status union and CMOAI have graced the event as Guest of Honours.

Addressing by Sri P shalem Raju GM Yellandu Area

Distribution of Jute Bags in replacement of Plastic during the awareness program
