Coal India Ltd. in a new CSR initiative is supporting the Himalayan Institute of Alternatives, Ladakh (HAIL) started by renowned educationist and reformer Sonam Wangchuk for the construction of passive solar heated classrooms in Ladakh. The passive solar heated classrooms are built using natural materials which help to maintain a comfortable temperature range throughout the year by using a natural source of energy - sunlight. The passive solar design helps absorb and trap all the natural heat from sunlight and the architecture lets it store the heat for long. The innovative solar classrooms when scaled up to building habitations can benefit people of Ladakh to have a more comfortable life during the cold and harsh winters. The total outlay of the project is Rs. 30 lakhs.

Language is a vital part of human connection. Although all species have their ways of communicating, humans are the only ones that have mastered cognitive language communication. Language allows us to share our ideas, thoughts, and feelings with others. It has the power to build societies, but also tear them down. To promote our national language and to develop a feeling of oneness with the language several activities have been lined starting from 14<sup>th</sup> September. In this series, essay competition and note writing competition in hindi was conducted for the employees of MCL Headquarter, Jagruti Vihar, Burla in Sambalpur.

The winners of the competition will be awarded to keep up their motivation towards Hindi language.

Week 80 (from 13.09.2022 to 19.09.2022)

Distribution of jute bags to employees

\* \* \*

“Distribution of jute bags to employees” was organized during 80th Week of Azadi Ka Amrut Mahotsav instead of scheduled programme i.e. Corporate Social Responsibility: Distribution of Masks and Sanitizers in nearby Tribal Villages.

The above programme was organized from 13.09.2022 to 19.09.2022 in SCCL to create awareness among all employees at Mines and Departments about the Global pollution caused by excess usage of plastic and replacing plastic bags by jute bags.

Sri. Devendar, General Manager (Bellampalli area) has inaugurated the programme and addressed that it is an effort to increase awareness of the grave and vital problem of plastic pollution in the environment. It is very significant since plastic poses a huge threat to the ecosystem, notably to land and marine life, endangering the coming generations.

He told that due to excess usage of plastic, pollution was increased all over the world, it is all of our responsibility to keep a check on it and try to reduce the pollution level. This can be made possible by using jute bags instead of plastic bags. Jute is a completely biodegradable product. It can be recycled easily.

Further, he said that Jute bags can be used as many times as we want. Besides plastic bags, jute/paper bags seem to be the best alternative.
