

Monthly Coal Production and Dispatch for May 2025

Posted On: 02 JUN 2025 4:02PM by PIB Delhi

India's coal production and dispatch witnessed steady growth in May 2025, compared to the same period last year. This reflects the continued efforts of the Ministry of Coal to ensure consistent supply and operational stability in the sector.

The overall coal production in India during May 2025 reached 86.24 MT (Provisional), marking an increase over the 83.96 MT produced in the corresponding period of the previous year. Production from captive/commercial mines during May 2025 stood at 16.93 MT (Provisional), registering a significant rise from 13.83 MT recorded during the same period last year. This surge highlights the growing contribution of captive/commercial mining to India's overall coal output.

Coal Stock

As on 31.05.2025, the coal stock held by coal companies witnessed a remarkable growth of 29.18%, reaching 122.69 MT, as compared to 94.98 MT during the corresponding period of the previous year. This increase stands as a testament to the significant rise in coal production across the country.

The Ministry of Coal remains committed to achieving sustainable growth, improving coal availability, and reducing dependence on imports. With the positive momentum, the coal sector continues to play a pivotal role in powering India's growth story.
